## BEING INFORMED ABOUT SEXUAL ASSAULT IS IMPORTANT

Sexual assault can affect anyone – including men in the military. It can take many different forms and be defined in different ways, but one thing remains the same: those impacted are not alone.

### There is help.

Knowing how to recognize the signs, access help and how to report is critical to effectively combat sexual assault in the military.

The Men's SAPR Campaign was created to build awareness of men who experience sexual assault in the military. It addresses the personal impact and negative effects on readiness and unit cohesion. The campaign provides education and access to resources for those impacted.

A series of short informative videos will help you quickly understand the stigmas and misconceptions associated with sexual assault and give you confidence in the reporting options.
